FULTON COUNTY AND THE DEPARTMENT OF ARTS & CULTURE

Fulton County and the Department of Arts & Culture (FCAC) are dedicated to the arts for the passion they inspire, the quality of life they afford us, and the economic impact they make. **The mission of the Fulton County Department of Arts and Culture is to ensure all citizens' access to the arts.**

FCAC supports and administers arts programming giving Fulton County residents broad access to the arts in the county's 15 municipalities. The fifteen-member Fulton County Arts Council, appointed by the Board of Commissioners, advises the Board on arts and cultural-related policy; each commissioner appoints two 2-year rotating terms.

Through the work of three community Arts Centers, Contracts for Services arts funding, and the Public Art Program, FCAC provides broad access to arts programming, including art classes, free performances, and grant funding.

Since 1979, the Contracts for Services program has invested approximately $89 million to the non-profit arts and cultural industry n Fulton County, establishing Fulton County as the leading public funder of the arts in the State of Georgia. In 2019, Fulton County Arts & Culture enriched the lives of over 80,000 residents through arts facilities and more than 4 million residents and visitors through Contracts for Services.

FCAC STRIVES TO BETTER THE LIVES OF FULTON COUNTY RESIDENTS THROUGH THE ARTS.
