

2008 Annual Report

Fulton County Medical Examiner's Office

Prepared by:

**Michele T. Stauffenberg, MD
Deputy Chief Medical Examiner**

**Randy L. Hanzlick, MD
Chief Medical Examiner**

June 2, 2009

Preface

This Annual Report would not be possible without the dedication and professionalism of the employees who work for the Fulton County Medical Examiner in Atlanta, Georgia. They are:

Administrative and Support Personnel

John M. Cross, Deputy Director
Paul Desamours, Operations Manager
Barbara Pringle-Smalls, Administrative Coordinator
Simone Murphy, Medicolegal Transcriptionist
Lynnette Redding, Medicolegal Transcriptionist
Angela Wright, Records and Documents Supervisor
Karleshia Bentley, Administrative Assistant
Tia Baynes, Customer Service
Shirley Gleaton, Customer Service

Medical Examiners

Randy Hanzlick, MD, Chief Medical Examiner
Michele T. Stauffenberg, MD, Deputy Chief Medical Examiner
Geoffrey P. Smith, MD, Associate Medical Examiner
Michael M. Heninger, MD, Associate Medical Examiner
Karen E. Sullivan, MD, Associate Medical Examiner
Kim A. Collins, MD, Medical Examiner
Jonathan Eisenstat, MD, Medical Examiner
Steve Atkinson, MD Forensic Pathology Fellow
Stacey Tate, MD, Forensic Pathology Fellow

Investigative Staff

Mark Guilbeau, PhD, DABMDI, Senior ME Investigator/Forensic Anthropologist
Tami Schroder, DABMDI, Senior ME Investigator
Mike Alsip, DABMDI, ME Investigator
Mary Beth Hauptle, DDS, DABMDI, ME Investigator, Forensic Odontologist
Betty Honey, DABMDI, ME Investigator
Teresa Price, ME Investigator
Mark Ruffin, ME Investigator
Jon Hager, ME Investigator
Laura Salm, ME Investigator
Leon Harrison, ME Investigator
Dumonder "Reda" Dawson, ME Investigator
Clinton Harbin, ME Investigator

Forensic Technical Support

Charles Love, Forensic Technician Supervisor
Angie Fuller, Forensic Technician Assistant Supervisor
Carlos Evans, Forensic Technician Assistant Supervisor
Kathy Washington, Forensic Technician
Chefrene Gory, Forensic Technician
Eric Bailey, Forensic Technician
Glenda Buchek, Medical Lab Technician
Mary Burgess, Medicolegal Photographer
Steve Moore, Medicolegal Photographer
Monica Melchor, Morgue Attendant
Patricia Mossenicas, Morgue Attendant

Custodial Services

Walter Williams
Sharon Matthews

Without the above individuals, quality investigation of deaths in Fulton County would not occur, and neither would professional communication with the many agencies and members of the public who are impacted when a death occurs. These employees also care for and maintain a modern facility in which death investigations may be professionally conducted with respect for the dead and at which members of the public, legal, and law enforcement communities can effectively conduct their business.

I thank the Fulton County Medical Examiner employees— each and every one— for their dedication, excellence, and professional quality death investigations conducted for the citizens of Fulton County. We are proud to be a death investigation center fully accredited by the National Association of Medical Examiners.

It is hoped that the information in this report may be useful to public health, public safety, and other policy and program planners who strive to improve the safety and quality of life. Additional data may be available for specialized studies that go beyond the general data presented in this report.

The medical examiner's office and its personnel “speak for the dead” and our office is a place where “death delights to serve the living.” It is with a true sense of civic duty and public service that we conduct our death investigations for the community.

It is now 2009 and this Annual report is for calendar year 2008. It is not uncommon for some death cases to take many months to finalize because of extensive testing or the need for investigative information that takes time to obtain. The Report itself takes time to prepare, and must be done while we carry on our usual activities and death investigations, which also take the time of our staff. We hope to continue preparing our annual report by July of each year.

Randy Hanzlick, MD
Chief Medical Examiner
June 2, 2009

TABLE OF CONTENTS

| | |
|---|-----------|
| Preface | 2 |
| Section I. Introduction | 5 |
| Section II. All Reported Cases | 8 |
| Section III. Manner of Death: Accident (Non-Traffic) | 10 |
| Section IV. Manner of Death: Accident (Traffic) | 18 |
| Section V. Manner of Death: Homicide | 22 |
| Section VI. Manner of Death : Suicide | 28 |
| Section VII. Manner of Death: Undetermined | 32 |
| Section VIII. Manner of Death: Natural | 35 |
| Section IX. Special Topics..... | 38 |
| Deaths among the Homeless..... | 38 |
| Deaths among Persons of Old Age..... | 39 |
| Deaths among Children..... | 44 |
| Deaths caused by Drugs and Poisons..... | 46 |
| Procedural Summary..... | 55 |
| Comments..... | 56 |

NOTE: Rather than providing large numbers of Tables, Graphs, and Figures, data are presented with an overall summary table followed by a list of cases with relevant detail. These lists can be used to categorized data in whatever manner a reader/user wishes to do. More detailed data can be provided by FCME if release of such data is compliant with applicable laws, policies, and procedures.

SECTION I. INTRODUCTION

The Fulton County Medical Examiner (FCME) serves all non-federal, incorporated and unincorporated areas within Fulton County. In 2008, these areas include nearly all of the City of Atlanta, Alpharetta, Chattahoochee Hills, College Park, East Point, Fairburn, Hapeville, Johns Creek, Milton, Mountain Park, Palmetto, Roswell, Sandy Springs, Union City, Unincorporated Fulton County, and other areas served by special law enforcement agencies such as MARTA and college police forces. The FCME does not serve the few areas of Federal property within the county such as the Federal Penitentiary which arranges for its own investigations. Under the provisions of the Georgia Death Investigation Act, FCME investigates deaths that are suspected or known as having resulted from external causes such as injury or poisoning, and deaths that are sudden, unexpected, and not explained with a reasonable degree of medical probability. Other selected types of death are also investigated such as those occurring while a person is in custody of law enforcement agencies.

The County covers 529 square miles and has an estimated population of about 1,014,000. Countywide, the population is about 48.4% white, 42.3% black, and 8.3% other minorities. The Hispanic population is increasing and amounts to about 7.9%.

The laws describing the duties of medical examiners in Georgia are contained mostly in Official Code of Georgia Annotated, Title 45, Chapter 16, the “Georgia Death Investigations Act.” The types of death required to be reported to the medical examiner include:

- Violence (injury)
- Casualty (accident)
- Suicide
- Suddenly when in apparent good health
- When unattended by physician (no doctor who can sign the death certificate)
- Suspicious or unusual
- Children under 7 if death is unexpected or unexplained
- Executions pursuant to death penalty (these do not occur in Fulton County)
- Inmate of state hospital or state, county, or city penal institution
- Admitted to hospital unconscious and dying within 24 hours without regaining consciousness

Decisions about autopsies are not mandated and are left to the discretion of the medical examiner. As can be seen, the laws are general enough that jurisdiction may be accepted in a wide variety of cases that are not otherwise specified in law, such as sudden death while under anesthesia, which may be considered to be “sudden and unexpected” or “unusual.”

When a death is reported to FCME, the case is either **accepted** (AJ) or **declined** (DJ). If a case is accepted, it means that the medical examiner will be signing the death certificate (certifying the death). A case is **declined** for one of two reasons:

- The incidents leading to death did not occur in Fulton County
- The death need not have been reported and there is a physician who is willing to sign the death certificate.

A case is **accepted** if:

- It meets the criteria specified by law as described above, and
- The incident leading to death occurred in Fulton County, or
- If the place of incident or onset of fatal events is unknown, the death occurred or the dead body was found in Fulton County

The case medical examiner (forensic pathologist) generally uses one of four approaches to certify a death (obtain information to complete the death certificate):

- **Signout.** The death certificate is signed without examining the body.
- **View.** A cursory examination is performed to further evaluate the case and rule out trauma or the need for further in-depth examination. A few simple case notes may be prepared.
- **External examination.** Formal external examination with a dictated report of the examination, usually including toxicology or chemistry tests as well.
- **Autopsy.** Complete autopsy with dictated report. A **limited dissection** (partial autopsy) is sometimes performed if:
 - there is expressed objection to autopsy or significant health or safety risks exist for staff, and,
 - a complete autopsy need not be performed.

There are basic general "rules" for classifying manner of death:

- **Natural** deaths are due solely or nearly totally to disease and/or the aging process.
- **Accident** applies when an injury or poisoning causes death and there is little or no evidence that the injury or poisoning occurred with intent to harm or cause death. In essence, the fatal outcome was unintentional.
- **Suicide** results from an injury or poisoning as a result of an intentional self-inflicted act committed to do self harm or cause the death of one's self.
- **Homicide** occurs when death results from a volitional act committed by another person to cause fear, harm, or death. Intent to cause death is a common element but is not required for classification as homicide (more below). It is to be emphasized that the classification of homicide for the purposes of death certification is a "neutral" term and neither indicates nor implies *criminal* intent, which remains a determination within the province of legal processes.
- **Undetermined** or "could not be determined" is a classification used when the information pointing to one manner of death is no more compelling than one or more other competing manners of death, in thorough consideration of all available information.

In general, when death involves a combination of natural processes and external factors, such as injury or poisoning, preference is given to the non-natural manner of death.

Budget and Staff

The current operating budget is \$3.5 million. The FCME staff consists of 39 employees including 5 full-time physician medical examiners, 12 investigators, 6 clerical staff, 3 administrators, 11 forensic technicians and support staff, and 2 custodians. We also have one forensic pathology physician in training with the position funded by Emory University School of Medicine.

General Response

When a death is reported to FCME, the case is assigned a sequential case number. Basic information is obtained on all cases reported. Investigators, in consultation with the on-call medical examiner as needed, make decisions about whether the case should be accepted or declined, if death scene investigation is required, and whether or not the body need be transported to the Fulton County Medical Examiner's Center. The on-call medical examiner then makes decisions about the type of examination to be conducted and the extent of additional testing to be performed. Usually, bodies transported to FCME are returned to the family and funeral home within 24 hours or less if the body has been officially identified.

For further information about FCME, please see our website at www.fcmeo.org

For further information about medical examiners and death investigation, please see the website of the National Association of Medical Examiners at www.TheNAME.org

Data Source and Analyses

The data herein are derived from the HOMER (Has Our Medical Examiner Records) Access database. In 2008, there were 2271 case reports. Eighteen of these records were non-human remains, and one death record was noted to be a duplicate record. Thus, after excluding these 19 records from data analysis, there were a total of 2252 unique human death cases for this report.

Race/Ethnicity Categories

Categorizing Race/Ethnicity of decedents has become more difficult because of a growing mixed-race population and because of personal preferences in how Race/Ethnicity is reported by family members.

For our database purposes, we assign race as follows:

B = Black or African American

W = White/Caucasian

WH = White Hispanic/Latino

BH = Black Hispanic/Latino

H = Hispanic/Latino

AS = Asian

PI = Pacific Islander

NA = Native American/Eskimo

Thus, for tabulation of Hispanic/Latino decedents, cases coded as WH, BH, or H would be used.

For decedent age, an H means Hours, D means Days, W means Weeks, and M means Months. Thus, a 4-month-old would be indicated as M04. Fetus is FET and stillborn is SBN. For all other ages, 3 digits are used. Thus, a 42-year-old would be 042.

For any data item, a blank means unknown or that the information was not obtained.

SECTION II. ALL REPORTED CASES

Table 1. Number of cases Accepted (AJ) and Declined (DJ) by Manner of death (n=2271)

| Jurisdiction | Manner of Death | Frequency | Percent |
|--------------|-----------------|--------------|---------------|
| AJ | ACCIDENT | 255 | 18.4 |
| | ACCIDENT (T) | 119 | 8.6 |
| | HOMICIDE | 156 | 11.2 |
| | NATURAL | 736 | 53.1 |
| | SUICIDE | 84 | 6.1 |
| | UNDETERMINED | 29 | 2.1 |
| | STILLBORN | 7 | 0.5 |
| | Total = | 1,386 | 100.00 |
| DJ | | 885 | |
| TOTAL | | 2271 | |

Table 2. Manner of death by Procedure, cross-tabulated for Accepted (Certified) Cases only (n=1,386)

| MANNER | PROCEDURE | | | | Total |
|----------------|------------|------------------|------------|-----------|--------------|
| | Autopsy | External PM Exam | Signout | View | |
| ACCIDENT* | 187 | 27 | 41 | 0 | 255 |
| ACCIDENT (T)** | 111 | 6 | 2 | 0 | 119 |
| HOMICIDE | 154 | 0 | 2 | 0 | 156 |
| NATURAL | 372 | 216 | 96 | 52 | 736 |
| SUICIDE | 84 | 0 | 0 | 0 | 84 |
| UNDETERMINED | 25 | 1 | 2 | 1 | 29 |
| STILLBORN | 7 | 0 | 0 | 0 | 7 |
| Total = | 940 | 250 | 143 | 53 | 1,386 |

* Non Traffic-related accidents

** Traffic-related accidents

Table 3. Police Jurisdiction by Manner of death cross-tabulated for all reported deaths (n=2,271)

| Police Jurisdiction | MANNER | | | | | | | TOTAL DEATHS | | % Accepted |
|---------------------|--------------|----------|-----------------|----------|---------|---------|--------------|--------------|----------|------------|
| | NA/DJ (1) | ACCIDENT | ACCIDENT (T) | HOMICIDE | NATURAL | SUICIDE | UNDETERMINED | Reported | Accepted | |
| Alpharetta | 23 | 6 | 1 | 0 | 19 | 4 | 0 | 53 | 30 | 56.6 |
| Atlanta | 400 | 141 | 54 | 118 | 395 | 42 | 17 | 1167 | 767 | 65.7 |
| College Park | 21 | 3 | 3 | 12 | 21 | 0 | 0 | 60 | 39 | 65.0 |
| East Point | 34 | 9 | 7 | 7 | 30 | 1 | 3 | 91 | 57 | 62.6 |
| Fairburn | 4 | 2 | 5 | 1 | 3 | 1 | 0 | 16 | 12 | 75.0 |
| Fulton County | 41 | 15 | 18 | 14 | 41 | 12 | 3 | 144 | 103 | 71.5 |
| Hapeville | 3 | 0 | 0 | 0 | 11 | 0 | 0 | 14 | 11 | 78.6 |
| Palmetto | 1 | 2 | 0 | 0 | 4 | 0 | 0 | 7 | 6 | 85.7 |
| Roswell | 39 | 13 | 7 | 1 | 22 | 6 | 3 | 91 | 52 | 57.1 |
| Sandy Springs | 40 | 12 | 6 | 0 | 27 | 8 | 1 | 93 | 54 | 58.1 |
| Union City | 22 | 5 | 6 | 1 | 16 | 4 | 0 | 54 | 32 | 59.3 |
| Other (2) | 257 | 47 | 12 | 2 | 147 | 6 | 3 | 480 | 273 | 46.4 |
| All Cases = | 885 | 255 | 119 | 156 | 736 | 84 | 29 | 2271 | 1386 | 61.0 |

1. NA/DJ=Not applicable/Declined jurisdiction

2. Includes special police jurisdictions such as Morehouse Police Department, MARTA, Atlanta Corrections, Georgia State Patrol, Ft. McPherson Police Department, case reported from other counties, and cases with police jurisdiction unspecified.

3. Data do not include 7 stillborns

SECTION III. MANNER OF DEATH: ACCIDENT (NON-TRAFFIC)

Table 4. Race/Ethnicity and Sex Information for 255 Accidental Deaths

| Accidental Deaths | | |
|-------------------|-----|-------|
| Race | Sex | Count |
| | F | 1 |
| B | F | 43 |
| B | M | 75 |
| BH | F | 1 |
| H | F | 1 |
| H | M | 5 |
| W | F | 48 |
| W | M | 81 |

| RACE/ETHNICITY | SEX | | Total |
|----------------------------|--------------|------------|------------|
| | Female (37%) | Male (63%) | |
| Black or African- American | 43 | 75 | 119 |
| White | 48 | 81 | 129 |
| Unknown | 1 | 0 | 1 |
| Hispanic | 2 | 5 | 7 |
| Total = | 94 | 161 | 255 |

Table 5. Accidental Deaths Categorized by Cause of Death

| Cause of Death | Count |
|------------------------------|-------|
| Drug Death-Poisoning | 67 |
| Fall-Standing Height | 62 |
| Drug Death-Poisoning+Disease | 57 |
| Fall-From Height | 11 |
| Asphyxia-Café Coronary | 9 |
| Blunt Force | 7 |
| Fire death | 7 |
| Hypothermia-Exogenous | 7 |
| Fall- Down Steps | 4 |
| Poisoning-Not Drug or CO | 3 |
| Cardiac-Hypertension | 2 |
| MVA-Pedestrian | 2 |
| Treatment Complication | 2 |
| Skeletal Disorder | 1 |
| Asphyxia-Overlaying | 1 |
| Asphyxia-Positional | 1 |
| Asphyxia-Suffocation | 1 |
| Asphyxia-Wedging | 1 |
| Pulmonary | 1 |
| Blunt Force-Chop | 1 |
| Electrical | 1 |
| Drowning-Tub | 1 |
| Hyperthermia-Exogenous | 1 |
| Anaphylaxis-Drug | 1 |
| Neoplasm | 1 |
| MVA-Occupant | 1 |
| Infection-Spider Bite | 1 |
| Drowning-Pool/Spa | 1 |

Table 6. Accidental Deaths Arranged by Age of Decedent

| Accidental Deaths by Age | | | | | | |
|--------------------------|------|-----|---------------|-------------|------------|------------------------------|
| Age | Race | Sex | Date Reported | Injury Date | Zip Code | Cause of Death |
| | | F | 8/6/2008 | 7/27/2008 | 30319- | Fall-Standing Height |
| 006 | B | F | 2/25/2008 | 2/25/2008 | 30349- | MVA-Pedestrian |
| 016 | B | M | 10/14/2008 | 10/14/2008 | 30331- | Blunt Force |
| 019 | W | M | 6/16/2008 | 6/16/2008 | 30350- | Drug Death-Poisoning |
| 019 | W | F | 10/8/2008 | 10/8/2008 | 30075- | Drug Death-Poisoning+Disease |
| 019 | BH | F | 8/24/2008 | 8/24/2008 | 30331- | Drug Death-Poisoning |
| 020 | W | M | 4/2/2008 | 4/2/2008 | 30308- | Drug Death-Poisoning |

SECTION VI: MANNER OF DEATH: SUICIDE

Table 13. Race/Ethnicity and Sex Information for 84 Suicidal Deaths

| Suicides | | |
|----------|-----|-------|
| Race | Sex | Count |
| AS | F | 2 |
| AS | M | 2 |
| B | F | 1 |
| B | M | 27 |
| H | M | 2 |
| W | F | 15 |
| W | M | 34 |
| WH | M | 1 |

| RACE | SEX | | Total |
|----------------------------|--------------|------------|-----------|
| | Female (21%) | Male (79%) | |
| Black or African- American | 1 | 27 | 28 |
| White | 15 | 35 | 50 |
| Asian | 2 | 2 | 4 |
| Hispanic | 0 | 3 | 3 |
| Total = | 18 | 66 | 84 |

Table 14. Suicides Categorized by Cause of Death

| Suicides | |
|------------------------------|-------|
| Cause of Death | Count |
| Gun-Handgun | 17 |
| Drug Death-Poisoning | 16 |
| Asphyxia-Hanging | 11 |
| Jump from Height | 9 |
| Gun-Revolver | 8 |
| Gun-Pistol | 4 |
| Gun-Rifle | 3 |
| Gun-Shotgun | 3 |
| Poisoning-Not Drug or CO | 3 |
| Sharp Instrument | 2 |
| Drug Death-Poisoning+Disease | 2 |
| Asphyxia-Suffocation | 2 |
| Jump from Height+Sharp Force | 1 |
| MVA-Driver | 1 |
| Drowning-Pond | 1 |
| Gun-Not Specified | 1 |

Table 15. Suicides Arranged by Age of Decedent

| Suicides by Age | | | | | | |
|-----------------|------|-----|---------------|-------------|------------|----------------------|
| Age | Race | Sex | Date Reported | Injury Date | Zip Code | Cause of Death |
| 017 | B | M | 11/30/2008 | 11/30/2008 | 30318- | Gun-Revolver |

SECTION VII. MANNER OF DEATH: UNDETERMINED

Table 16. Race/Ethnicity and Sex Information for 29 Deaths with Undetermined Manner*

| Undetermined Manner of Death | | |
|------------------------------|-----|-------|
| Race | Sex | Count |
| | F | 1 |
| B | F | 9 |
| B | M | 10 |
| BH | M | 1 |
| H | M | 4 |
| W | F | 2 |
| W | M | 2 |

| RACE | SEX | | Total |
|----------------------------|-----------------|---------------|-----------|
| | Female (15%) | Male (85%) | |
| Black or African- American | 9 | 11 | 20 |
| White | 2 | 2 | 4 |
| Hispanic | 0 | 5 | 5 |
| Total = | 12 | 17 | 29 |

*It is office policy in SIDS-like cases to certify the manner of death as undetermined rather than natural unless another manner of death is identified. “Stressor” indicates some risk factor was present such as soft bedding. “Disease” means that disease was present but significance in causing death is unknown. “Both” means that disease and a stressor were present. “Classic” means that neither disease nor a stressor was identified. “Not SIDS” means that the circumstances were not consistent with SIDS but a specific cause of death was not determined.

Table 17. Manner of Death Undetermined Categorized by Cause of Death

| Undetermined Manner | |
|-------------------------------|-------|
| Cause of Death | Count |
| SIDS/OD-Stressor | 15 |
| Undetermined | 2 |
| Drug Death-Poisoning | 2 |
| Blunt Force | 2 |
| SIDS/OD-Not SIDS | 1 |
| SIDS/OD-Classic | 1 |
| SIDS/OD-Both | 1 |
| Nervous System-Hemorrhage-HBP | 1 |
| Gun-Shotgun | 1 |
| Gun-Revolver | 1 |
| Fall-Standing Height | 1 |
| Drug Death-Poisoning+Disease | 1 |

Table 18. Manner of Death Undetermined Arranged by Age of Decedent

| Undetermined Manner of Death | | | | | | |
|------------------------------|------|-----|---------------|---------------|----------|-------------------------------|

| ACCIDENT | 054 | W | M | Combined toxic effects of methadone and clonazepam | | | Cirrhosis of the liver |
| ACCIDENT | 063 | B | F | Acute cocaine toxicity | | | |

Deaths Due to Drugs, Poisons, or Chronic Abuse

| Manner of Death | Age | Race | Sex | Cause of Death | Due to: | Due to: | Contributing |
|-----------------|-----|------|-----|--|-----------------------------------|------------------------------------|---|
| ACCIDENT | 019 | W | M | Opiate toxicity | | | |
| ACCIDENT | 026 | B | M | Lobar pneumonia superimposed upon diffuse alveolar damage | Hepatic and chronic renal failure | Cocaine toxicity | |
| ACCIDENT | 046 | B | M | Cocaine and Ethyl Alcohol Toxicity | | | Cardiomegaly |
| ACCIDENT | 052 | B | M | Cocaine toxicity aggravating hypertensive cardiovascular disease | | | |
| ACCIDENT | 049 | B | M | Intracerebral Hemorrhage complicating Cocaine Use | | | Hypertension |
| ACCIDENT | 034 | B | M | Combined toxic effects of cocaine, ethanol, and hydrocodone | | | Hypertension |
| ACCIDENT | 054 | B | F | Toxicity of methadone, oxycodone, venlafaxine, and benzodiazepines | | | Sarcoidosis; Hypertension |
| ACCIDENT | 022 | W | M | Combined toxic effects of heroin and benzodiazepines | | | |
| ACCIDENT | 030 | B | F | Intracerebral Hemorrhage complicating Cocaine Use | | | |
| ACCIDENT | 046 | W | M | Brainstem hemorrhage associated with methamphetamine use | | | Hypertensive cardiovascular disease |
| ACCIDENT | 047 | B | F | Global cerebral ischemia and brainstem hemorrhagic infarction | Subdural hemorrhage | Acute cocaine and alcohol toxicity | Cirrhosis from ethanolism and hepatitis C |
| ACCIDENT | 062 | W | M | Mixed drug toxicity | | | |
| ACCIDENT | 046 | W | F | Toxic effects of methadone and other prescription medications | | | Cardiomegaly |
| ACCIDENT | 020 | W | M | Combined toxic effects of opiates, benzodiazepines, and carisoprodol | | | Asthma |
| ACCIDENT | 024 | W | M | Coronary Artery Thrombosis complicating Methamphetamine Use | | | Subacute Myocardial Infarct |
| ACCIDENT | 062 | B | M | Acute cocaine poisoning | | | Probable atherosclerotic cardiovascular disease |
| ACCIDENT | 034 | B | M | Cocaine Use associated with Ruptured Intracranial Aneurysm | | | |
| ACCIDENT | 021 | W | M | Toxic effects of benzodiazepine | | | |
| ACCIDENT | 063 | B | F | Toxic effects of codeine, morphine, diazepam, and cyclobenzaprine. | | | Atherosclerotic cardiovascular disease |
| ACCIDENT | 047 | B | M | Toxic effects of cocaine | | | |

Deaths Due to Drugs, Poisons, or Chronic Abuse

| Manner of Death | Age | Race | Sex | Cause of Death | Due to: | Due to: | Contributing |
|-----------------|-----|------|-----|---|--|---------|---|
| ACCIDENT | 056 | B | M | Toxic Effects of Cocaine | | | |
| ACCIDENT | 036 | W | M | Opiate (heroin) toxicity (amended) | | | Recent cocaine use |
| ACCIDENT | 045 | B | M | Toxic effects of cocaine | | | |
| ACCIDENT | 031 | W | M | Combined Toxic Effects of Morphine, Cocaine and Ethanol | | | |
| ACCIDENT | 046 | B | F | Toxic effects of cocaine and morphine | | | |
| ACCIDENT | 055 | W | M | Toxic effects of cocaine, morphine, and ethanol | | | |
| ACCIDENT | 050 | W | M | Cocaine Use complicating Coronary Artery Atherosclerosis | | | |
| ACCIDENT | 024 | W | M | Toxic effects of diazepam, alprazolam, cocaine, and methadone | | | |
| ACCIDENT | 026 | W | M | Toxic effects of morphine, ethanol, alprazolam, and ... | ... methylenedioxymethamphetamine (MDMA) | | |
| ACCIDENT | 049 | W | F | Toxic effects of cocaine use | | | |
| ACCIDENT | 041 | W | F | Combined toxic effects of ethanol, opiates, and diphenhydramine | | | Cirrhosis; Chronic ethanol abuse; Seizure disorder |
| ACCIDENT | 023 | W | M | Combined Toxic Effects of Heroin and Alprazolam | | | |
| ACCIDENT | 047 | W | M | Acute cocaine poisoning | | | |
| ACCIDENT | 048 | W | M | Combined toxic effects of methadone and hydrocodone | | | |
| ACCIDENT | 025 | W | M | Toxic effects of opiates and ethanol | | | |
| ACCIDENT | 060 | W | M | Laryngeal edema | Anaphylaxis | | |
| ACCIDENT | 024 | W | F | Toxic effects of heroin | | | |
| ACCIDENT | 048 | W | M | Oxycodone toxicity complicating atherosclerotic coronary... | ...artery disease | | |
| ACCIDENT | 054 | W | M | Acute cocaine poisoning | | | Cirrhosis due to hepatitis C |
| ACCIDENT | 041 | W | F | Combined toxicity of nortriptyline, imipramine, methadone, ... | ...alprazolam, and ethanol | | Hypertensive and atherosclerotic cardiovascular disease |
| ACCIDENT | 046 | B | M | Acute ethanol intoxication | | | |
| ACCIDENT | 039 | B | F | Coronary artery atherosclerosis aggravated by cocaine use | | | |

Deaths Due to Drugs, Poisons, or Chronic Abuse

| Manner of Death | Age | Race | Sex | Cause of Death | Due to: | Due to: | Contributing |
|-----------------|-----|------|-----|---|------------------------|-----------------------------------|---|
| ACCIDENT | 047 | B | M | Cocaine toxicity aggravating atherosclerotic coronary artery disease | | | Hypertension |
| ACCIDENT | 047 | W | M | Combined toxic effects of morphine, gamma-hydroxybutyric acid, ethanol | | | Hypertensive cardiovascular disease |
| ACCIDENT | 030 | W | M | Combined Toxic Effects of Fentanyl, Cyclobenzaprine and Diazepam | | | |
| ACCIDENT | 049 | B | M | Cocaine Use complicating Dilated Cardiomyopathy | | | |
| ACCIDENT | 034 | W | M | Toxic effects of hydrocodone, alprazolam, carisoprodol, ... | ... and citalopram | | |
| ACCIDENT | 059 | W | M | Heroin toxicity | | | Hypertensive cardiovascular disease |
| ACCIDENT | 034 | W | M | Combined Toxic Effects of Ethyl Alcohol, Oxycodone and Diazepam | | | |
| ACCIDENT | 034 | W | M | Combined toxicity of gamma-hydroxybutyric acid (GHB) and amphetamine | | | Recent cocaine use |
| ACCIDENT | 022 | W | M | Morphine and Alprazolam Toxicity | | | |
| ACCIDENT | 052 | B | M | Cocaine toxicity aggravating congestive heart failure | | | Hypertensive and atherosclerotic cardiovascular disease |
| ACCIDENT | 019 | W | F | Combined toxic effects of oxycodone and alprazolam ingestion | | | Toxicology additionally positive for THC, amitriptyline |
| ACCIDENT | 030 | B | F | Delayed complications of opiate and cocaine toxicity | | | |
| ACCIDENT | 040 | W | M | Complications of Acute Gastric Perforation | Necrotizing Vasculitis | Acute and Chronic Amphetamine Use | |
| ACCIDENT | 024 | H | F | Rhabdomyolysis with acute renal failure (Amended) | Malignant hyperthermia | Acute cocaine intoxication | |
| ACCIDENT | 032 | B | M | Toxic effects of cocaine and heroin use | | | |
| ACCIDENT | 060 | W | F | Multiple drug toxicity | | | Chronic ethanol abuse |
| ACCIDENT | 054 | B | M | Methadone toxicity | | | Hypertensive cardiovascular disease |
| ACCIDENT | 062 | W | M | Toxic effects of methadone | | | Coronary |

Procedural Summary

A brief summary of basic operational data for 2008 is as follows:

| | |
|---|------|
| • Total case reports received | 2271 |
| • Non-human cases | 18 |
| • Duplicate reports | 1 |
| • Relics | 0 |
| • Total human deaths reported | 2252 |
| • Cased declined, natural death with certifier, or other county | 885 |
| • Cases accepted for full investigation and certification | 1386 |
| • Natural deaths | 736 |
| • Homicides | 156 |
| • Suicides | 84 |
| • Accidents (excluding traffic fatalities) | 255 |
| • Road-traffic related Accidental Deaths | 119 |
| • Undetermined manner of death | 29 |
| • Stillborn | 7 |
| • On-scene death investigations | 894 |
| • Bodies transported to the office | 1329 |
| • Cases certified without bodily examination by MD | 144 |
| • External examination (Views + External Exams) by MD | 363 |
| • Complete autopsies by MD | 928 |
| • Partial (Limited) Autopsies by MD | 5 |
| • Bodies examined by investigator, not MD | 124 |
| • Total bodies examined by MD or investigator | 1422 |
| • Certified death but autopsy performed at hospital | 4 |
| • Cases submitted for toxicology | 1147 |
| • 2008 cases remaining unidentified | 1 |
| • County burials on year 2008 cases | 47 |
| • Exhumations | 0 |
| • Organ and tissue donations | 35 |

Comments

The services provided by the Fulton County Medical Examiner go far beyond the routine duties of conducting death investigations. Some of these other services include:

- Testifying in Court Cases
- Participating on Child Fatality Review Teams
- Giving Lectures and Training Sessions
- Providing a Forensic Pathology Fellowship Training Program
- Providing Death Investigation Internships and Clerkships
- Instructing Pathology Residents in Forensic Pathology
- Serving on State and National Committees and Advisory Boards
- Reporting Notifiable Conditions to the Health Department
- Reporting Applicable Deaths to Federal Agencies such as the Consumer Product Safety Commission, FDA, and the Drug Abuse Warning Network
- Preparing Scientific Articles and Research Papers
- Participating in National Organizations and their Activities
- Preparing Press Releases
- Maintaining an Office Website
- Developing In-house Databases
- Reporting Unidentified Decedents to NCIC and the NamUs Unidentified Decedent Reporting System
- Reporting Relevant Case Information to National Registries such as the National Association of Medical Examiner's Pediatric Toxicology Registry
- Providing Forensic Pathology and Death Investigation Experience to Medical Students at Morehouse School of Medicine, Emory University School of Medicine, and other Medical Institutions
- Participating in Studies and Programs Conducted by the Centers for Disease control and Prevention
