VACCINATIONS BY DEMOGRAPHIC CHARACTERISTICS

Children under 12 are not yet eligible for vaccination. For information on vaccine eligibility and availability, or to schedule your Covid-19 vaccine, [click here](#). Percentages refer to the percentage of age group population with at least one dose. Percentage vaccinated might appear to exceed the estimated number of individuals in a given age group or category. This could be due to increases in current resident numbers versus census estimates, which are based on 2018 census data.

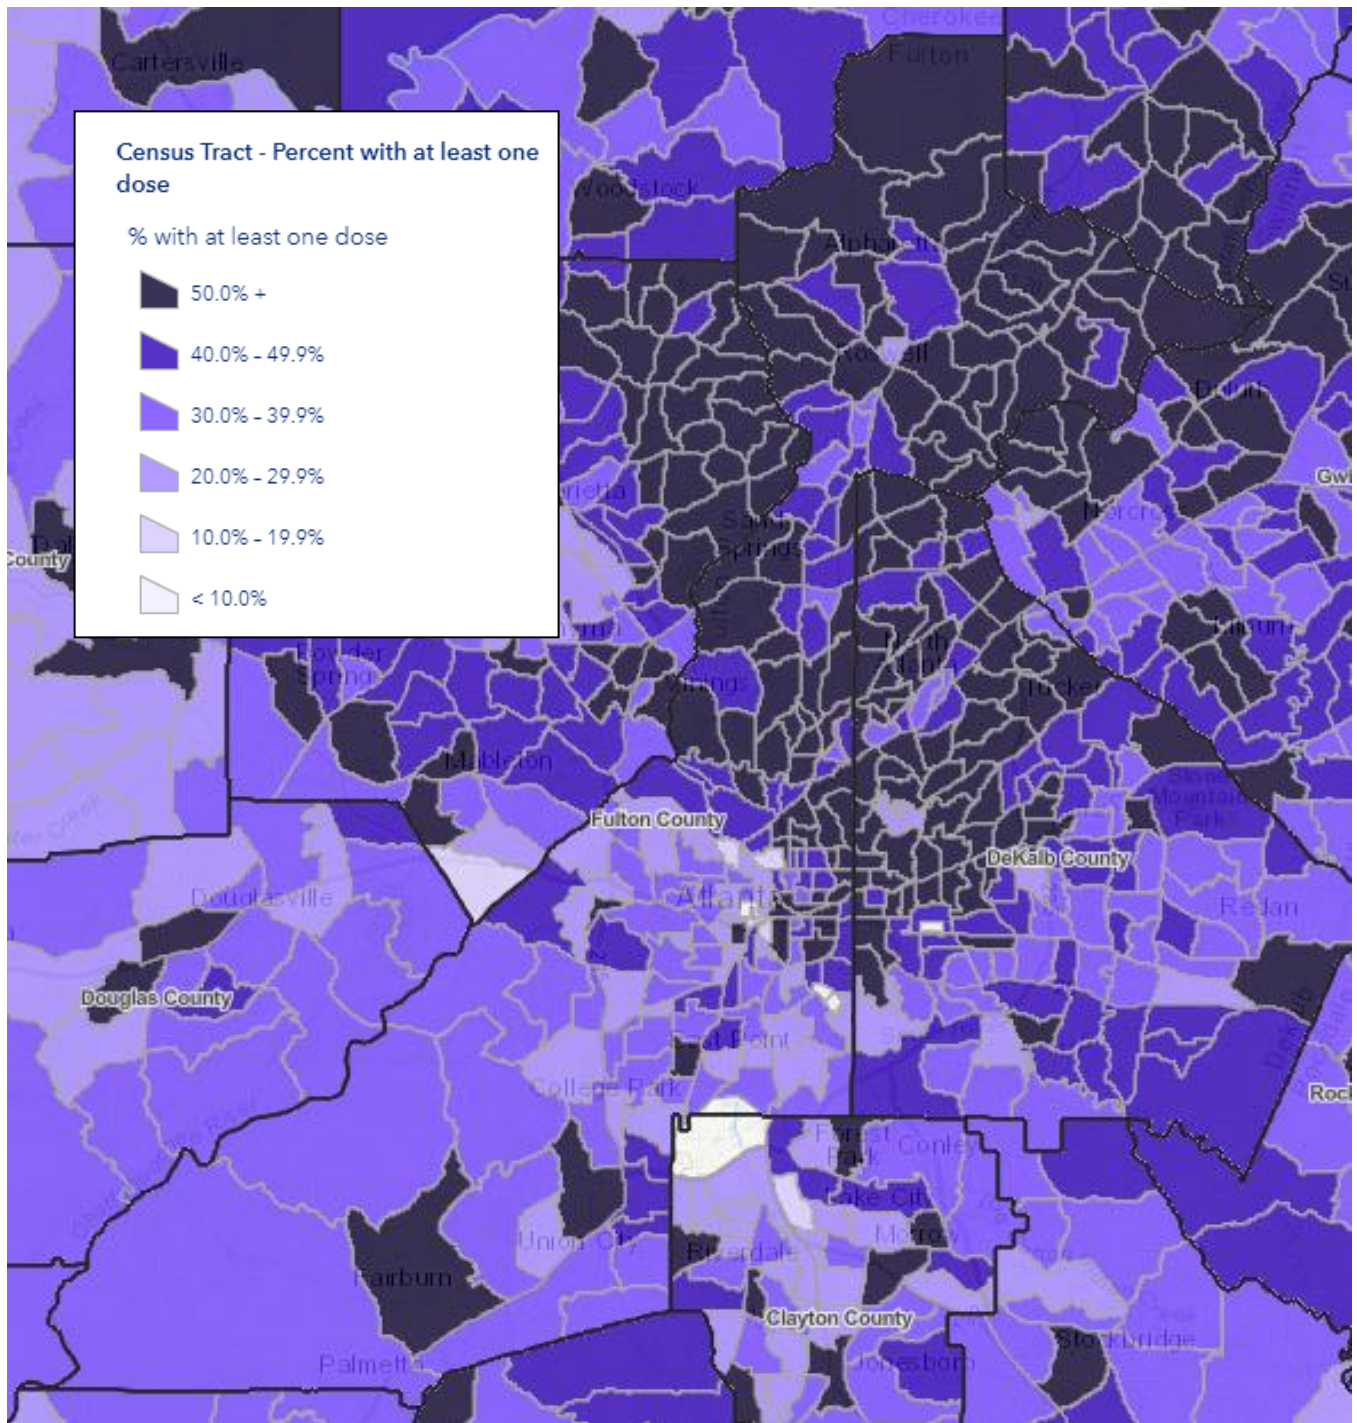

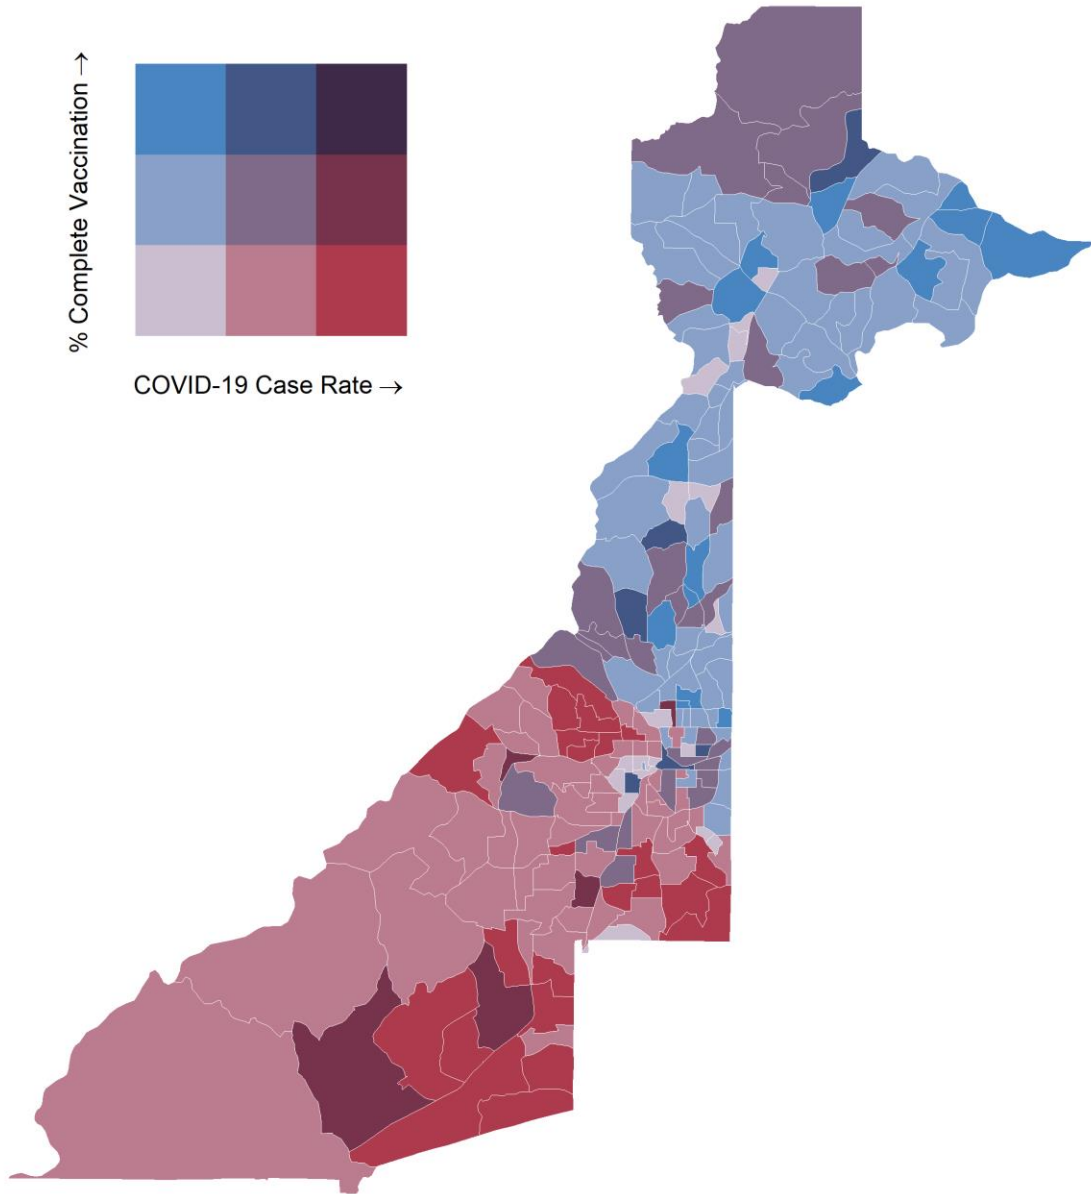

Fig. 9. Percent Complete Vaccination and COVID-19 Case Rate (per 100,000 population) by Census Tract, August 16 – September 12, 2021

How to interpret these colors: The darker the blue, the better. The upper most blue box indicates low COVID-19 case rates and high vaccination coverage. Red is not ideal as red indicates high COVID-19 case rates and low vaccination coverage. Colors in between indicate varying combinations of COVID-19 case rates and vaccination coverage. COVID-19 case rate reflects new COVID-19 cases diagnosed between August 16 and September 12, 2021 across Fulton County.
