

FULTON COUNTY COVID-19 VACCINATION REPORT

Numbers are based on Fulton population from 2018 Census data.

NUMBER OF FULTON
RESIDENTS FULLY VACCINATED

494,307

PERCENT OF FULTON
RESIDENTS FULLY VACCINATED

48.4%

NUMBER OF FULTON RESIDENTS
WITH AT LEAST ONE DOSE

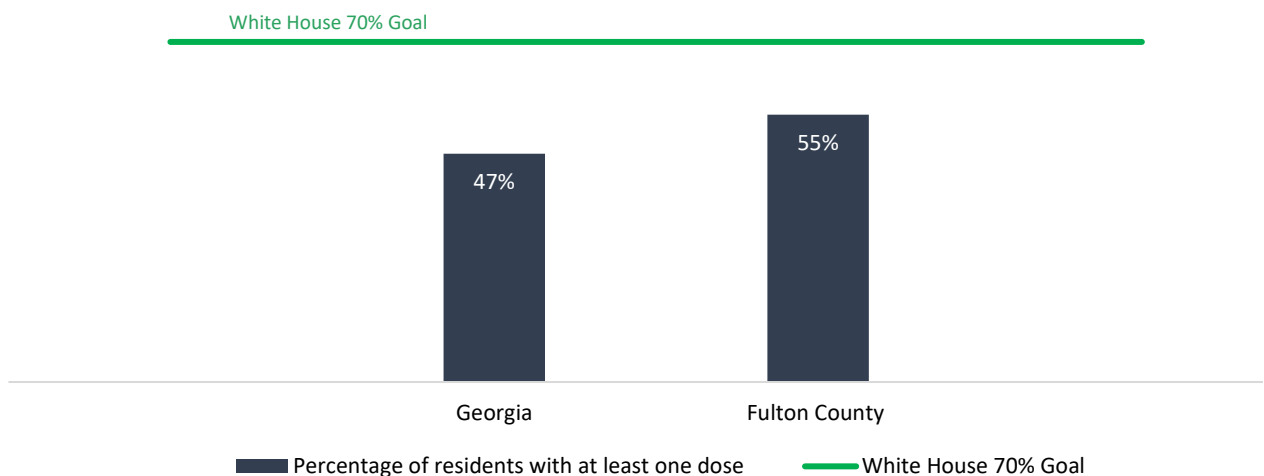

558,381

PERCENT OF FULTON RESIDENTS
WITH AT LEAST ONE DOSE

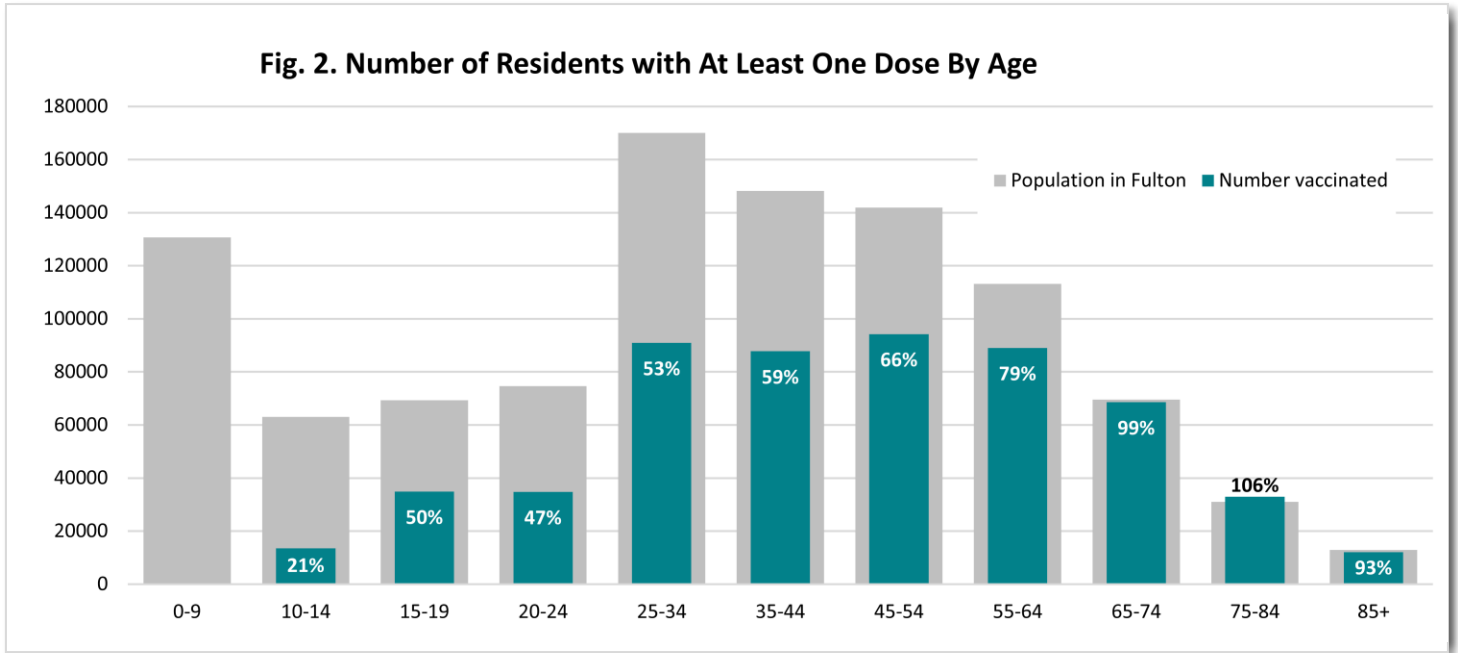

54.6%

Compared to the State of Georgia, which has **41%** of its population fully vaccinated, Fulton County is doing better than the state

Fig. 1. Both Georgia and Fulton County are below the White House goal of having 70% of adults with at least one dose

VACCINATIONS BY DEMOGRAPHIC CHARACTERISTICS

Children under 12 are not yet eligible for vaccination. For information on vaccine eligibility and availability, or to schedule your Covid-19 vaccine, [click here](#). Percentages refer to the percentage of age group population with at least one dose. Percentage vaccinated might appear to exceed the estimated number of individuals in a given age group or category. This could be due to increases in current resident numbers versus census estimates, which are based on 2018 census data.

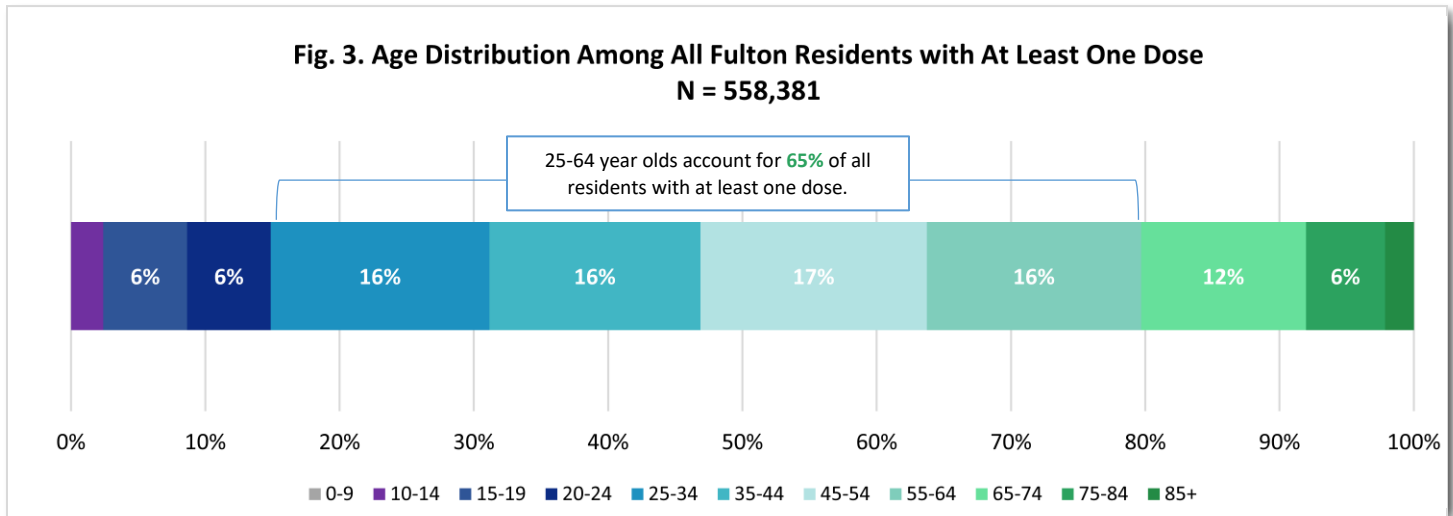

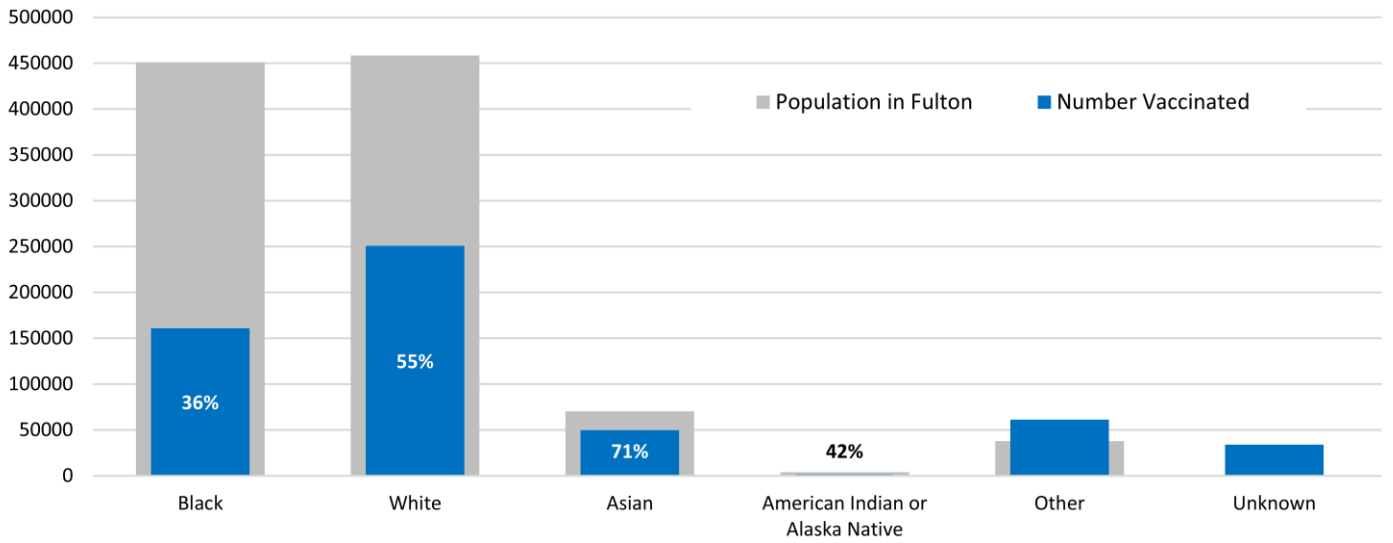

Table 1 - Race	Percent of Fulton Population ¹ (N = 1,021,902)	Percent of Racial Sub-Population With At Least One Dose
Black	44%	36%
White	45%	55%
Asian	7%	71%
American Indian or Alaska Native	<1%	42%
Other	4%	-
Unknown	-	-

¹Per 2018 Census data.

Fig. 4. Number of Residents With At Least One Dose By Race

Percentages refer to the percentage of the racial sub-population that has at least one dose.
