

JUSTIFICATION AND APPROVAL FOR ALLOWING AWARD OF CONTRACT WITHOUT COMPETITION

(Section A must be completed by the User Department and then submitted to the Department of Purchasing & Contract Compliance)

SECTION A

Department: *Public Works*

Department Contact: *David Clark*

Description of Supplies/Services: *ADB SAFEGATE – Navigator: Airport Lighting Control System*

Demonstration of Contractor's Unique Qualifications:

CATEGORY OF AWARD: Section II-D (FC Police Sole Source) - when necessary to maintain compatibility with existing equipment or systems, only specified makes and models of technical equipment, software, and parts will satisfy the County's needs for additional units or replacement items, and only one source is available.

HISTORICAL PERFORMANCE: Navigator System is the "human interface" component and an integral part of standard airfield lighting control operations at towered airports. Air Traffic Controllers use this system inside the ATC Tower at KFTY to control all aspects of airport lighting on the airfield; inclusive of TWY and RWY edge lights, visual approach guidance lighting, runway end identifier lighting, airfield signage, etc.

UNIQUE QUALIFICATIONS: Navigator System is proprietary (ADB Safegate) and therefore "Sole Source," through Allen Enterprises, Inc. [vendor]

ORIGINALLY PROCURED COMPETITIVELY: Yes, original system was procured through approved FC procurement process

IMPACT: Current airfield lighting control system is operating off of an outdated computer operating system (MS Windows 98) and NO REPLACEMENT PARTS ARE AVAILABLE. Without the Navigator System in place, ATC Controllers at KFTY will be unable to adequately control airfield lighting to facilitate safe and efficient operations of aircraft on airport surfaces and transitioning through KFTY airspace.
