Bid# 07ITB57876B-BR
COUNTY STANDARD SERVERS
Addendum No. 1
Page Two

This Addendum forms a part of the contract documents and answers questions asked by interested vendors, and changes the specifications of the servers:

1. Question: I am working on your Standard Server Bid # 07ITB57876B-BR and would like to ask a question. Both the 2-way and 4-way servers are described as "Standalone" servers. Does this mean that you wish both to be tower models with the option to rack mount them? The 4-way actually is called a "Rack Server" but at the bottom you have requested "Rack and Mounting Kit".

Answer: The bid calls for rack mount kit on both servers -- Standalone in our language means they won't be part of our blade server configuration.

2. Question: In regard to Bid 07ITB57876B-BR, the Windows Server® 2003 R2, Standard Edition only supports 4GB of memory while the bid asks for 16GB. This option is offered under the enterprise edition of Windows Server 2003.

If possible, could you look into this and give advice on what direction to go? The Windows Server 2003 R2, Standard Edition supports up to 4GB of memory.

Answer: To all vendors: The software requirement is to be changed to Enterprise Edition of Windows Server 2003 for both units.
