**09ITB68289YB-TR Cytology Laboratory Services to Georgia Women
Addendum No. 1
Page Two**

This Addendum forms a part of the contract documents and **modifies** the original ITB documents as noted below:

**The following questions were posed of the aforementioned ITB
Project:**

1. What is the approximate volume for Pap smear testing in Fulton County?

The approximate volume of paps performed each year by the Fulton County is 4,800.

2. What is the required electronic data type?

You will be required to electronically submit all clients' data for Pap smear results regardless of payment source, i.e. results on patients with Medicaid, Medicare and/or insurance to the State Cancer Screening Program within 30 days. This may be done by submitting a disc

3. How many pap slides?

One pap slide per specimen

4. On Page 61, Section 7, third bullet point, it states, "Complies with current federal requirements and is licensed under the laws of the state of Georgia **and performs cytology reading in the state of Georgia**". We do not have a laboratory site in Georgia and will be reading cytology in the state of Kansas. Is this a mandatory requirement that would keep us from possibly being awarded this bid?

The contractor shall be based in Georgia
