Addendum No. 1

This Addendum forms a part of the contract documents and answers questions asked by interested bidders:

1. **Question:** My question is what is the process for attaining advance approval for substitutes or exceptions?

Answer: After commencement of the contract resulting from this ITB, a representative from the Fulton County Department of Information Technology will be designated as the County's primary contact person. This representative will manage the day-to-day vendor services related to the contract. Any substitutes or exceptions to County standards or requirements for specific items during the term of the contract will be considered only on a case-by-case basis. The process for obtaining advance approval requires that the vendor submit details of the proposed substitute and/or exception, along with a reason/justification for the change, to the County's designated representative. If the proposed substitute/exception is approved, the advance approval will be furnished to the vendor by the County's representative in writing.

2. **Question:** Does Fulton County do business with vendors outside of Georgia?

Answer: Yes, we do business with vendors outside of Georgia.

3. **Question:** Do we have to register online to do business with you?

Answer: You do not have to register online to submit a bid to Fulton County, but if your company was awarded a contract, you would have to be a registered vendor in order to be issued a purchase order.

4. **Question:** Do you know who is the current contract holder, performing the cabling duties for the structured cabling contract named as 13ITB87269B-BR County Wide **Structure Cabling** for the Information Technology Department?

Answer: The County's current vendor for structured cabling is Georgia Cable & Electric (GC&E).

5. **Question:** For the fiber is there any particular manufacturer that needs to be quoted for the cable, as well as fiber connectors, fiber connector panels, and fiber rack mount LIU's?

Answer: Yes, Leviton.

6. **Question:** For the power pricing requested for the APC SmartUPS's is there an average footage we should use for materials to add the twist lock outlets?

Answer: In most cases the average footage for twist lock dedicated circuits is no more than 25 ft. from the panel.

7. **Question:** Is there a specific manufacturer of 19" racks and metals that need to be priced?

Answer: Yes, CPI.
