A-23 (NEW SELECTION)
Walker System Art Exhibits And Displays

The Walker System consists of the hardware — the Uprights, Bases, Stiffeners, Junctions, etc. for holding all kinds and sizes of panels to make displays and exhibits, movable and portable, temporary or permanent.

Your pegboard, plywood, wallboard or other panel is the key to an attractive and flexible exhibit in a variety of arrangements. Set-up is quick and easy, all nuts and bolts needed for assembly are furnished with complete instructions. Refer to the diagram to choose your parts. FOB factory.

Uprights — The vertical parts that hold your panel to make a display. Made of anodized aluminum. Concealed in the Upright are Clamps (1) which grip the edge of any panel not over 1/2" thick. Also concealed in the Upright are one or more Panel Supports (2) on which the bottom edge of the panel rests to insure a level and adequately supported panel. (Use 1 Upright in conjunction with a Standard and Junction Kit when a Base is not required, such as in the center of a configuration.)

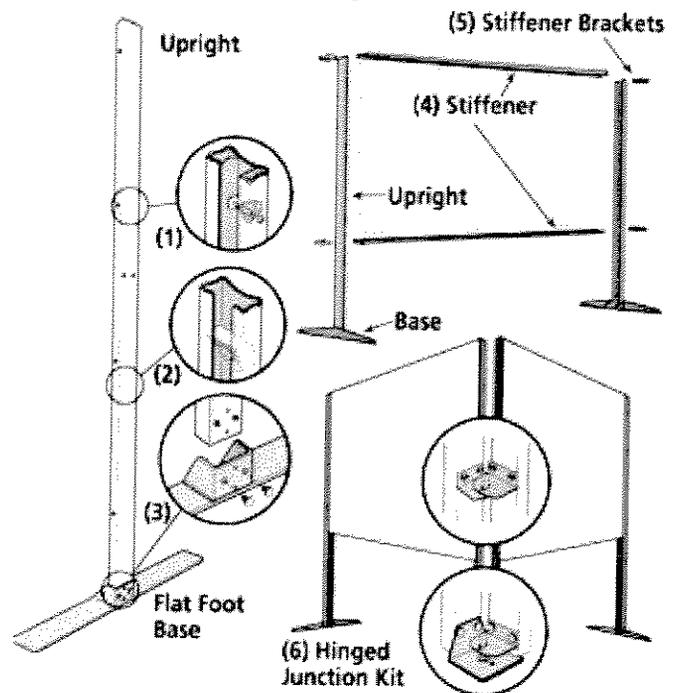

Bases — Bolt to the bottoms of the Uprights (3). They hold free-standing units upright and stable. Plated steel, available in the Flat Foot Base style.

Flat Foot Base — Clean, sculptured, almost impossible to trip over. 24" long.

Standards — Consists of two uprights plus two bases.

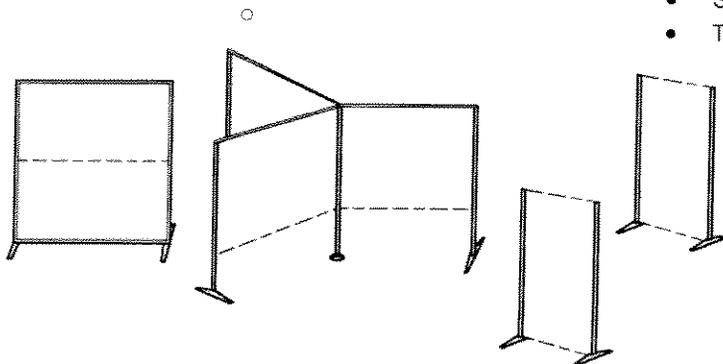

Stiffeners and Stiffener Brackets — Clamp to the top and bottom edges of long, thin or warped panels (4). They add both stiffness and a finishing trim. Brackets (5) are included for joining Stiffeners and Uprights and providing extra strength.

Hinged Junction Kit — Everything you need to join 2, 3, or 4 Uprights or Standards for a multi-panel arrangement (6). (Uprights and Standards not included.)

The stiffeners included in this set permit the use of almost any type of panel material (panels are not included). Shipping weight is 130 lbs (59 kg). This set includes the following materials:

- Six pairs of 78" (198 cm) standards
- Six pairs of 96" (244 cm) standards
- 9 x 96" (244 cm) Stiffeners
- Nine hinged junction kits
- Flat foot bases
- Six screwdrivers
- Two wrench

NOTE: Fabric and Frame to be selected under standard finishes. Discuss w/ Interior Designer on finishes.
