**08ITBR61345YB-TR Mainline Land Records Maintenance & Support
Addendum No. 1
Page Two**

This Addendum forms a part of the contract documents and **modifies** the original ITB documents as noted below:

The following questions were posed of the aforementioned ITB project.

1. How do we obtain an up-to-date copy of the Main Line Systems program source code?

We do not know how to get the source code and it is not a requirement of this solicitation.

2. Will the awarded vendor be required to “retain” the source code in an Escrow Account?

That is not a requirement of this solicitation.

3. Will the awarded vendor be permitted to make changes to the source code on behalf of Fulton County?

Yes, with the permission of the County of Fulton.

4. Can we get more information on the software upgrade & release process by Main Line Corp.?

Mainline Corporation is in receivership and Fulton County has no knowledge of software upgrade and release plans.

5. Who is responsible for resolving issues with this process---the Vendor, the County, or Main Line Corp.?

The awarded vendor will be responsible for resolving issues with the software application when problems arise.

6. Can we obtain a copy of Main Line Corp.'s coding standards, software change control, configuration control and release/version control documents?

Fulton County cannot obtain these coding standards, software change control, configuration control and release/version control documents.

7. Will the incumbent vendor be allowed to submit a bid package? Yes

8. Can we get a copy of the current contract and pricing? If so, will that be included as an addendum to the RFP?

There is no current contract, and this is an Invitation to Bid solicitation, not a Request for Proposal.

9. On page 66, the ITB mentions providing an additional price to support and maintain an inventory of hardware. According to the Plasmon Corporation, the Plasmon M500J was declared Out-of-Life on April 1st, 2003 with an end of Support on March 31st, 2008. Is the County open to procuring new hardware to support the Plasmon related business tasks?

The County is open to procuring new hardware but the solicitation is to cover the current hardware configuration.

10. In those instances where something may not be applicable (i.e. using subcontractors), is it permissible, instead of submitting the actual affidavit, to provide a statement that the particular item is not applicable, since there will be nothing to complete on the affidavit itself?

If it is not applicable, the vendor may write N/A, on that page and sign it.

ACKNOWLEDGEMENT OF ADDENDUM NO. 1

The undersigned bidder acknowledges receipt of this addendum by returning one (1) copy of this form with the bid package to the Purchasing Department, Fulton County Public Safety Building, 130 Peachtree Street, Suite 1168, Atlanta, Georgia 30303 by the ITB due date and time **Tuesday, November 25, 2008 at 11:00 A.M.**

This is to acknowledge receipt of Addendum No. 1, _____ day of _____, 2008.
