## Addendum No. 1

### Page Two

This Addendum forms a part of the contract documents and **modifies** the original ITB documents as noted below:

#### **The following questions were posed of the aforementioned ITB project:**

##### **QUESTION 1:**

The bid specification states that a facility must be located in Fulton County and must be within 25 miles of the public works facility that it services. Given the fact that Fulton County is more than 25 miles in length, and that no disposal company has a facility on both ends of the County, should we assume that the award of this bid will be to multiple providers and facilities?

##### **ANSWER 1:**

No; one provider is usually selected. It is necessary for ongoing operations to have landfills and transfer stations that are in close proximity to the County as it is necessary for our crews to deliver waste in a timely manner. Which disposal facilities are currently receiving the waste and how many tons are delivered to each disposal site on average, monthly? Advanced disposal was the previous vendor. Waste management is the current vendor and the County is able to utilize any waste management landfill in the Metro Atlanta Area. Most of the waste goes to Pine Bluff landfill in Forsyth County, Chadwick Road Landfill in Roswell, Gateway Transfer Station in south Fulton and Willow Oak landfill in South Fulton. The waste disposal is between 3,500 - 5000 tons annually.

##### **QUESTION 2:**

How many roll-off hauls are performed at each site on average per month?

##### **ANSWER 2:**

90% of the waste is generated from roll-off and compactors at the Merk Miles Transfer Facility. The average is 60 - 100 pulls a month.

##### **QUESTION 3:**

What is the average ton per haul in the roll-offs?

##### **ANSWER 3:**

2 - 12 tons

##### **QUESTION 4:**

Would it be possible to obtain a copy of the invoice from your current provider that shows all of this information?

##### **ANSWER 4:**

No
