**Addendum No. 2**  
**Page Two**

This Addendum forms a part of the contract documents and **modifies** the original ITB documents as noted below:

**Questions, Statements and Responses:**

1. *Question:* Bid Item #8: Was this item intentionally omitted?  
*Response:* This appears to be a typo; there is no Item # 8
2. *Question:* Bid Item #12: Are you sole sourcing Polara Bull Dog ped buttons, or can an equivalent be quoted?  
*Response:* The County only stock spare parts for the Polara Bull Dog buttons and only uses them for all installations.
3. *Question:* Bid Item #14: Type B cameras are becoming obsolete in the CCTV market. For future compatibility and communications over Ethernet, can Type C cameras and cabinets be provided? Usually equates to a lower cost solution.  
*Response:* GDOT has just recently accepted the Type C cameras and the County will now accept it also.
4. *Question:* Bid Item #16: What intersections are being integrated into the system.  
*Response:* Flat Shoals Road corridor; Roosevelt Highway corridor; Buffington Road Corridor; South Fulton Parkway.
5. *Statement:* A site survey will need to be conducted to ensure proper number of cameras and intersection licenses.  
*Response:* As stated in the Pre-bid conference, the County recommends that all Bidders visit the intersections in the bid package and familiarize themselves with the bid requirements.
6. *Question:* Bid Item #21: Are you sole sourcing TESCO Traffic22 BBS, or can an equivalent be quoted?  
*Response:* The County only stock spare parts for the TESCO Traffic 22 BBS and only uses them for all installations.

7. *Question:* Bid Item #24: Since CCTV (line item #14) cameras are part of this bid, and serial radios do not have enough bandwidth to transmit video, can Ethernet radios be quoted? This also provides for better communications for line item #16 (ACS Lite system).

*Response:* Bid Item # 24 is different from Bid Item # 14; they will be used for integrating into existing systems.
