Addendum No. 2
Page Two

This Addendum forms a part of the contract documents and answer questions asked by interested vendors:

Question: Some of the component terminology appears to be Hewlett-Packard specific – Storage Works, HP Redundant Hot-Plug Fans, etc. Is there a preference by your user for HP products? Will non-HP products be considered if they completely meet the desired functionality? **Answer:** There is not a preference for HP products—the department’ bid from last year was awarded to a HP VAR thus the HP language—but this award will be awarded to the lowest responding bidder that meets all the specifications –

Question: In the Standalone Server 4 Way Processor specs, page 58, “Additional Accessories” there is a line item for Additional Hard Drive (optional) but nothing to specify what size is desired. I also saw nothing in the bid section that referred to this option. In the Standalone Server 2 Way Processor this same question comes up. Is there something to be quoted here? – **Answer:** The additional accessories are listed so the department can know the price for those accessories should an agency need those items—since we don’t know at this time the applications that will be served. The price for these additional accessories should be noted but the award will be based on the lowest responsive bidder for the items above the optional section. The hard drive should be the same as the hard drive listed above
