Addendum No. 2
Page Two**

This Addendum forms a part of the contract documents and **modifies** the original ITB documents as noted below:

The following questions were posed of the aforementioned ITB document:

Question # 1: Page 64 Repairs / Services / Parts (Alternators)

Can you tell me which Crown Vics are Patrol vehicles - 180 minimum and which are the other vehicles requiring highest amperage available?

Answer:

All Crown Victoria's in our fleet are police interceptors; although only $\frac{3}{4}$ are "patrol" vehicles, we sometimes transition some of the administrative cars to patrol, so the level of service should be the same for all. The minimum amperage for those vehicles is 200.

Question # 2: Page 67 Repairs / Services / Parts (Tune -up)

Please clarify what type of tune-up; plugs & wires, injection air filter, fuel line, hose etc.? What is your definition of a Tune-up?

Answer:

The "tune-up" would include plugs, wires, injection air filter, fuel line and filters. The hoses and coils should be provided on a (when needed) basis.

Question #3: Is a Bid Bond Required?

Answer:

A Bid Bond is not required for this project.
