

House Moving Permits

(Obtain from the Downtown/Central Permitting Office, Only)

A **House Moving Permit** is required when a structure is being removed from a site and being transferred **from** or **to** a location within the County or if it is being transported **through** unincorporated Fulton County to another County or City.

This application must be made at least 10-days in advance of the actual date of the move to allow the County sufficient time to evaluate the information. The Public Works Department (PW), Transportation Division, must sign the application form before it can be processed by Environment and Community Development (ECD). The client can go directly to PW on the 6th floor of the Government Center and get this done themselves or we can transmit the application form to PW. However, if we do it, there is no guarantee that we will get the signature within that 10-day period.

Other things that make this a different kind of permit are the signature of the Applicant signifying that they understand that they must get route approval by the Police, Fire and EMS, and a requirement to submit a copy of the liability insurance by the moving company to us along with the application for the permit.

There is a \$525 fee for this permit.
