1. Please select your preference.

Alternatives		Preference
1	Conventional diamond interchange with traffic signals	
2	Conventional diamond interchange with roundabouts	
3	Diverging diamond interchange with traffic signals	✓

2. Please provide any additional comments on your selection.

Can the utilities be placed underground?  
Ensure the traffic will not back into the interstate on the  
SB offramp!!

3. Please list any other transportation-related issues/projects that you feel need immediate attention.

① The signal at Cascade Rd and Fairburn Rd has mast arms  
that need to be switched. That is, the mast arm on the west side  
of the intersection should be switched w/ the mast arm on the east side  
of the intersection. ~~the~~ <sup>the</sup> operations at Camp Creek park and Campbellton Rd  
do not work efficiently!!!

2. Please provide any additional comments on your selection.

Allows cascade pkwy to make left turn lanes

3. Please list any other transportation-related issues/projects that you feel need immediate attention.

Camp Creek @ Campbellton Road was recently restriped and the operations have decreased significantly. Need to improve the operations at this location.

1. Please select your preference.

Alternatives		Preference
1	Conventional diamond interchange with traffic signals	
2	Conventional diamond interchange with roundabouts	
3	Diverging diamond interchange with traffic signals	✓

2. Please provide any additional comments on your selection.

*I selected 3 because I thought it was easier for motorists to navigate. Although for the cost it doesn't improve the traffic flow beyond a D*

3. Please list any other transportation-related issues/projects that you feel need immediate attention.

1. Please select your preference.

	Alternatives	Preference
1	Conventional diamond interchange with traffic signals	2
2	Conventional diamond interchange with roundabouts	3
3	Diverging diamond interchange with traffic signals	1

2. Please provide any additional comments on your selection.

Option #3 provides the best cost/benefit with the lowest amount of time to implement. Option #2 would disrupt the community too much.

3. Please list any other transportation-related issues/projects that you feel need immediate attention.

DDI is preferred choice given time/money constraints.

3. Please list any other transportation-related issues/projects that you feel need immediate attention.

- Please do "raised" sidewalks (like Lenox Square) to limit pedestrians crossing in any places other than designated spot.
- Provide for pedestrian access & bike access along Cascade.
