MEMORANDUM

TO: Board of Commissioners
THROUGH:  Zachary L. Williams, County Manager
FROM: Fulton County Legislative Team
DATE: August 15, 2011
SUBJECT: Assessment of Proposed Legislative Redistricting Maps / Data

On Friday, August 12th, the Joint Legislative and Congressional Reapportionment Committees released the proposed maps and the accompanying data for the State Senate and State House Districts. We have made the following assessment of the proposed maps and data:

Impact on Fulton Senate Delegation

This proposed map would increase the Fulton County Senate Delegation from seven (7) seats to eleven (11) seats. The current seven (7) member Delegation includes four (4) Democrats and three (3) Republicans. If passed, the proposed eleven (11) member Delegation would potentially include seven (7) Republican members and four (4) Democratic Members.

Impact on Fulton House Delegation

This proposed map would increase the Fulton County House Delegation from twenty-two (22) seats to twenty-five (25) seats. The current twenty-two (22) member Delegation includes fourteen (14) Democrats and eight (8) Republicans. If passed, the proposed twenty-five (25) member Delegation would potentially include thirteen (13) Republican members and twelve (12) Democratic Members.

We are providing for your information the proposed House and Senate District Maps along with related data provided by the Legislative and Congressional Reapportionment Office.

If additional information is required, please contact Mike Vaquer, Legislative Policy Manager, (404) 612-7379.
