

ARROW YOUTH LEADERSHIP PEACE PLEDGE

Arrow Youth Leadership Council Institute is honored to serve as your local school partner of choice. As a 21st century leadership program that engages in asset mapping and collaborative partnerships, we personalize our approach to meet the needs of the schools, communities, & students whom we serve. Our elite offerings help close academic gaps through an award-winning youth leadership development training program.

The students in our program are called Arrows because they are trained to focus on targeting 4 rules of engagement:

1. Mind - Critical Thinking-Socio Emotional Wellness = Thought Leadership
2. Mouth -Advocacy/Civic and Communication Competencies = Change Leadership
3. Heart - College and Career Exploration = STEAM/Focused Leadership
4. Hands - Service Learning = Servant Leadership

Our current peace initiative encourages other student leaders to join with us in pledging to choose peace in our interactions and support our declaration for a state of emergency for the youth here in Georgia. We advocate for positive change in our community and our state. The success from our efforts are evidenced in the improved lives of our young global leaders who target their potential and change our world.
