RATES

- Fulton County's features a rate schedule bi-monthly service charge and a volume charge for each utility.
- Fulton County uses an inclining water block structure for domestic users effective in the summer months of April through October (specifically April 1st through October 31st).
- Residential Water Use is billed on a 3-tiered pricing system based on each domestic customer's base (a.k.a. Winter Average) consumption during the winter months of November through March (specifically November 1st through March 31st).
- Outdoor water use meter readings are combined with indoor use in calculating the baseline winter water usage.
- For new residences, the base consumption is 16,200 gallons.
- Monthly customer service fees cover the overhead costs for meter reading, meter maintenance and billing operations.

| WATER CONSERVATION RATES (from April 1 to October 31) | 2023 | 2024 | 2025 |
